

PRESS RELEASE

Transaction for second wind farm in UK is completed – RENERCO acquires another project from RWE npower renewables

The transaction for the purchase of Kildrummy Wind Farm has been completed on 17 August 2011 under the terms of the framework agreement concluded between RENERCO Renewable Energy Concepts AG, a Company of BayWa r.e Group, and RWE npower renewables.

The Kildrummy site is located 50 km west of Aberdeen and construction of the wind farm is expected to start in early 2012. Turbine model selection is currently being conducted although the wind farm is expected to have a capacity of around 18 MW.

About RENERCO

RENERCO Renewable Energy Concepts AG has been active in the renewable energy sector since 1989. Current business activities concentrate on wind energy, photovoltaics, geothermal energy and bioenergy with a regional focus on the German domestic market and the rest of Europe.

RENERCO's range of services include project development, planning and turnkey construction of renewable energy plants, as well as technical and commercial operations management. RENERCO also supports investment and leasing companies, banking institutions and institutional investors with technical consulting.

Since the end of 2009 BayWa r.e GmbH has been the majority shareholder of RENERCO.
